THE PHILIPPINES' STRONGER PUSH TOWARDS NATIONAL WATER SECURITY

The Philippine economy is expected to remain a top regional performer with growth projected at 6.9% in 2017 and 2018, according to The World Bank.

With manufacturing and trade industries as the main drivers of growth, the Philippines continues to be one of the most dynamic economies in Asia, having sound economic fundamentals and a globally recognized competitive workforce.

However, an increase in economic activities gives rise to higher water demand and more challenges in the Philippines' water security. Likewise, the Philippine government and private sectors strive to explore new methods and make use of technological advancements to find the best solutions addressing various water challenges.

WATER PHILIPPINES 2019: A HOTSPOT OF TECHNOLOGIES, INSIGHTS AND BUSINESS OPPORTUNITIES

The Philippines' Leading International Water Supply, Sanitation, Industrial Wastewater Treatment and Purification Event returns on its 5th edition.

Water Philippines 2019 promises to be an outstanding show to expand networks for building strong business partnerships and source of valuable information on advanced technologies.

Joining this highly-specialized event will lead you to explore big business opportunities in one of Asia's fastest growing market – the Philippines.

“WATER BULLETIN”

“PWAA is overwhelmed to be a partner in this wonderful undertaking and pledge to extend its full support for the success of the joint execution of Water Philippines Expo. I hope that this activity will be an inclusive opportunity to search for ways and means of effectively managing and conserving our water resources.”

ENGR. EULOGIO F. AGATEP, II
President
Philippine Water Works Association, Inc. (PWAA)

“As a professional organization of Sanitary Engineers whose professional practice deals directly on matters pertaining to water supply, the PSSE fully supports Water Philippines Expo that UBM has been organizing since 2011. This exhibition will definitely benefit the stakeholders in the water supply industry.”

DR. ROBERT S. LICUP, F.PSSE, ASEAN ENG., ACEP
National President
Philippine Society of Sanitary Engineers Inc. (PSSE)

“Water Philippines' goal to attainment of sustainable and clean water resource should be everyone's concern. Being the new umbrella organization of the plumbing professionals and practitioners in the Philippines, we are very thankful for being part of the successful staging of this event.”

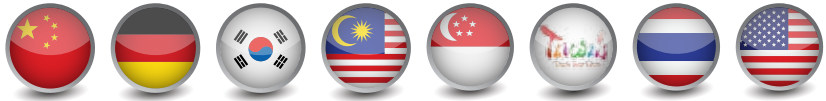

ENGR. WILLIAM J. JUAN, RMP/PEE/MEPF
Interim National President
Philippine Integrated Society of Master Plumbers, Inc. (PISMAP)

“EXHIBITOR’S ASSESSMENT”

“I have attended a lot of water shows in Asia Pacific and this year, Water Philippines is bigger than I expected. There are a lot of OEMs in pumping and treatment and the visitor traffic is also good. We received a lot of enquiries from the visitors mainly engineers in the water industry.”

MR. CALLUM PECK
Project Sales Manager
Grundfos Pumps Philippines Inc.

“We have partners from Japan and Germany and we use their components in our designs. Water Philippines is booming and getting bigger and I will actually reserve for the next show in 2019. To UBM, keep up the good work and keep on bringing new technologies to the Philippines.”

MR. FRANCIS RAMOS
President and CEO
Exotherm, Inc.

“This is my second time participating in Water Philippines and I am happy to say that the show is growing. I would like to wish UBM all the best, and for the next edition of Water Philippines, we will definitely be participating again.”

MR. MICHAEL BURGER
Marketing Manager
Andritz Singapore

“VISITOR’S ASSESSMENT”

“I am here to source for new products and services and I would prefer to meet the suppliers face-to-face and conclude a good deal. Therefore, being here at Water Philippines provides a lot of opportunities and benefits for me to source new businesses.”

MR. JOEL DAVID
Director / Owner
Mandioni Construction and Development

“I am looking for more products and technologies here at Water Philippines. I was able to find lots of new innovations in terms of water management and also solar pumps and piping systems.”

MR. WILSON OREJOLA
General Manager
Wilcore Engineering Services, Philippines

“This is now my fourth visit and Water Philippines is livelier and there are more participating companies. My visit to the show is extremely fruitful and I am able to meet new suppliers and manufacturers. I would like to wish UBM all the best and as a fan of Water Philippines show, I will be coming back again in 2019.”

MR. ALDRICH CASTILLO
Consultant
AEC Water Tech Consultancy Services
