

Asia's Leading Trade Fair for Environmental Technology Solutions: Water, Waste, Air and Soil

Offering an effective business and networking platform for Chinese and international professionals in the environmental sector, IE expo China has kept the key role for environmental technology and industrial innovation in Asia for over 20 years.

In 2023, IE expo China will take place from April 19 to 21 and grow to 200,000 square meters, thus spanning all 17 halls of the Shanghai New International Expo Centre (SNIEC). The event will be focusing more than ever on circular economy and climate change: the arrival of the "Double Carbon Era" caused the demand for green technologies to leap up, strongly supported by the Chinese government and the continuous entry of top global enterprises.

EXHIBITOR PROFILE

IE expo China 2023 covers all high potential sectors of the environmental market:

- Water and Sewage Treatment
- Waste Management
- Site Remediation
- Air Pollution and Control
- Environmental Monitoring

VISITOR TARGET GROUPS

Experts from the following sectors are invited:

- Industry / Manufacturing Sector
- Commerce
- Public and Private Suppliers and Disposers
- Technical Monitoring Companies
- Ministries, Authorities and Other Public Institutions
- Import and Export Companies
- Associations, Research and Development Institutes, Universities

Good reasons to exhibit

- Guarantor of quality: 50-year track record of the parent show IFAT in Munich and 20 years of experience in the Chinese market.
- Excellent business and networking platform: contact to top experts, opinion leaders and decision-makers to develop national and international business.
- Strong support: the Chinese government, international organizations, and major industry associations officially endorse the event.
- High-quality supporting program: share and discuss the current issues of the environmental protection industry at the event's conferences, conventions and sub-forums.
